FOOTBALL ACADEMY RESPONSIVE SITE (SPONSOR)

Developed a football academy website from scratch using HTML, CSS, and JAVASCRIPT. This comprehensive approach allowed for full control over the design, layout, and functionality, resulting in a tailored and engaging online platform for the academy.

- Developed a unique and personalized design for the website, reflecting the identity and branding of the football academy.
- The website is fully responsive, adapting seamlessly to various screen size and devices including tablets, and smartphones.
- Integrated accessibility features, such as alt text for images and proper semantic HTML markup, to ensure the website is usable and accessible to all users, including those disabilities.

ECOMMERCE RESPONSIVE WEBSITE

Developed a E-commerce site using HTML, CSS, JAVASCRIPT & REACT JS.

Some of the key features I have incorporated:

- User authentication
- Product catalog browsing
- Responsive design for desktops and devices compatibility
- Intuitive user interface for smooth navigation
- Add to cart & billing functionality
- Dynamic search capabilities
- Selected items dashboard for easy management of products and order's
